Cash transfers timeline:

14 January 2017

14 January 2019

Maximum impact

The introduction of basic income contributes to the Sustainable Development Goals of the United Nations for 2030: no poverty, no hunger, good health and well-being, quality education, gender equality, decent work and economic growth and less inequality.

Data collection

Extensive survey filled by participants at 3 different points in time:

Midline (January 2018):
One year after the start of the unconditional cash transfers

Endline (January 2019):
Just after the unconditional cash transfers ended

Follow-Up* (January 2021):
Two years after unconditional cash transfers

JANUARY
The CT handout starts

Midline data collection

JANUARY
The CT handout ends;
Endline data collection

JANUARY
Follow-up data collection

The surveys were executed in Busibi & a control village.

* The follow-up data collection data, useful for a sustainability analysis of CT effects, was not included in this presentation and is the subject of the PhD research

Expenditure

Mobile money Busibi

Less extreme poverty

By giving free money, Eight gives the residents of Busibi the means to climb out of extreme poverty.

Savings

Busibi & control village

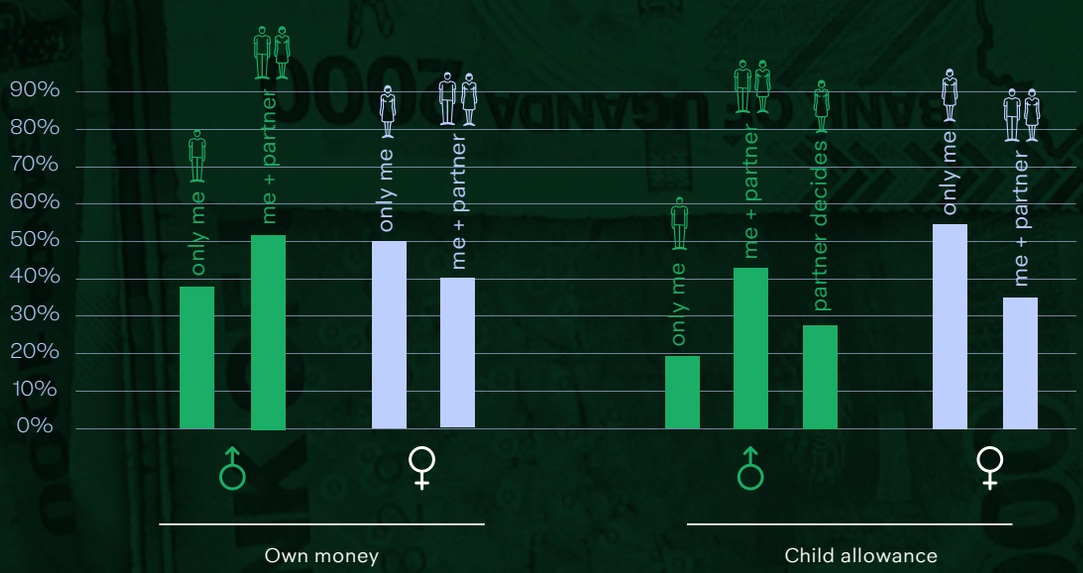

More savings

Residents of Busibi are decreasing their debt and starting to save.

More equality between men and women

Women indicate that they are more independent in their relationship.

University of Antwerp | IOB | Institute of Development Policy

Filippo Grisolia • PHD researcher → Nathalie Holvoet • Professor → Sara Dewachter • Post-doc researcher

More entrepreneurship, more decent work and economic growth

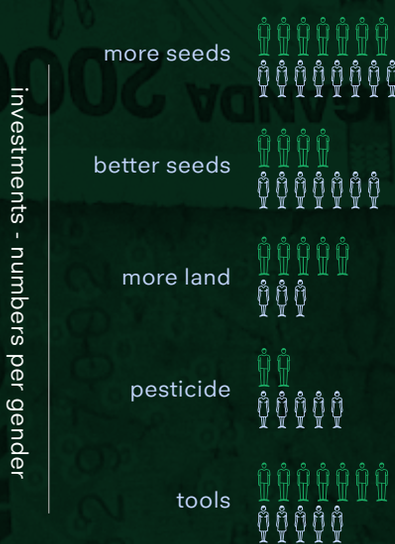

Entrepreneurship increases tenfold

From two to twenty companies. 25 new cases are started, of which 7 are failing and 18 are still active.

Big impact with gender differences

Most residents of Busibi invest in better housing. Many thatched mud huts are being replaced by permanent stone houses with an iron roof.

University of Antwerp | IOB | Institute of Development Policy

Filippo Grisolia • PHD researcher → Nathalie Holvoet • Professor → Sara Dewachter • Post-doc researcher

People unite

The residents start up savings groups. They use this to build a road together and help each other to renovate the houses. People regularly look for solutions to their problems together and attend community meetings more often.

Fact check: People don't waste money on bad goods

More children in education

The number of children attending school rises from 50% to 94.7%.

eight

Health & wellbeing

Food

Improvement of food consumption & health

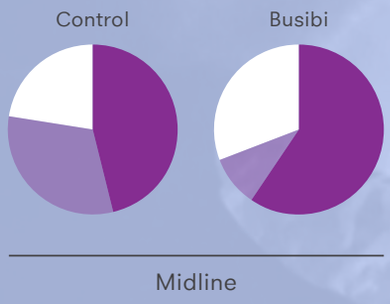

55% indicated that they had to make fewer doctor visits after 1 year. People provide more variety in their diet and have better access to pure water.

Life satisfaction

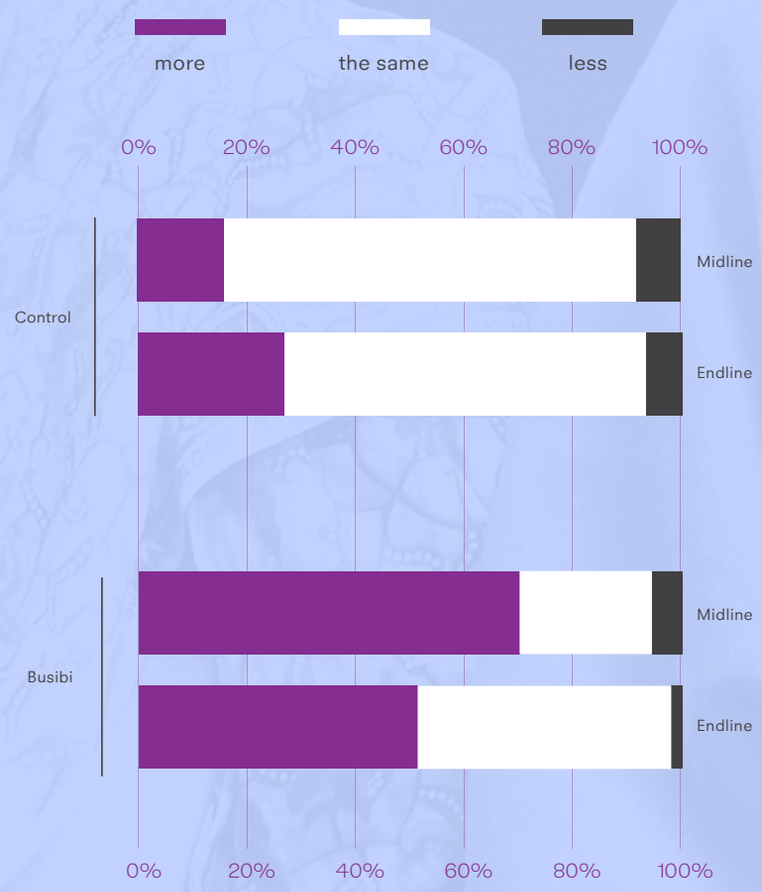

Happier people

The people report in large numbers (80%) that they are more satisfied with their lives. Hardly anyone is less satisfied. For more than 25% of the respondents there is less physical abuse and for 0% more (!).
